DISCUSSION ITEMS:

Proposed Radiology Rules Change

Mr. Ormond reviewed the proposed changes to the Radiology Rule for the Board, specifically focusing on the definitions of ionizing and non-ionizing radiation. Ms. Wood stated that the non-ionizing radiation definition has problems. Mr. Ormond asked if it would be acceptable to pull out that particular language, so as to facilitate the acceptance of the rest of the changes. Ms. Ellis also recommended that radiographic podiatry be added to the changes, and to omit the reference to scoliosis. Mr. Ormond then recommended that the change to the rules change reference the Content Specifications for the Limited Scope examination. The Board agreed with this recommendation.
